

ADDENDUM

Personal DeskMate 2

The following table lists all the files contained on your Personal DeskMate diskette. Some of these files are required for the program to run, and you should never delete them. There are, however, other files that you can delete (if you are not using them) to create additional storage space on your diskette. This list indicates which files can be deleted and if their deletion creates any problems for other files.

File	Required	Not Required	Notes
DESK.EXE	X		
MAINMENU.PDM	X		
DMCSR.MOD	X		
DMVD1000.MOD	X		Required on the TX only
DMDB.MOD		X	Required when running the Filer application
DMPDTAN.MOD		X	Might receive error message but press (ESC) to continue with no printer available
DMPDIBMM.MOD		X	Required if using an IBM-compatible dot matrix printer
DMPDASCI.MOD		X	Required when printing ASCII files
DMJOY.MOD		X	Required if using a color mouse or joystick
DMSERIAL.MOD		X	Required for a Microsoft-compatible serial mouse
DMACCESS.ACC		X	Required when using the Calendar, Clipboard, Mouse, Colors, Communications, or Date and Time Accessories
DMNOTEPD.ACC		X	
DMSERV.ACC	X		Required by Page Setup, also provides Calculator and Printer Setup Accessories

File	Required	Not Required	Notes
DMHELP.ACC		X	
DMPHONE.ACC		X	
CALENDAR.PDM		X	.PDM files are the application files
FILER.PDM		X	
TELECOM.PDM		X	
WRKSHEET.PDM		X	
PAINT.PDM		X	
TEXT.PDM		X	
MUSIC.PDM		X	
*INVNTORY.FIL	X		Do Not Delete— required to run Filer.

Sample Files Not Required

XMAS.SNG		X	.SNG files are the sample Music files
BACH.SNG		X	
SONATINA.SNG		X	
CANON.SNG		X	
ART.PNT		X	Sample Paint file
LETTER.DOC		X	Sample Text Files
†RESUME.DOC		X	
CHECK.WKS		X	.WKS files are sample Worksheet files
BUDGET.WKS		X	

Note: If you are using a Tandy 1000HX with only 256K RAM, do not set files to more than 12 or buffers to more than 3 in the setuphx program. Higher settings will decrease RAM so that there is not enough space available for running all the DeskMate applications.

* Only the first two lines in the "Comments" field are printed when you print a *report* from the INVNTORY.FIL file. However, all lines in the "Comments" field appear when you print a *form* from the file.

† An additional sample file, RESUME.DOC, appears in your Text files.

You must use IBM Mode when you are using the following printers:

DMP 130
DMP 2100P
2110
2120
LP 1000
